A diamond importer of Cincinnati has just completed a diamond necklace worth \$40,000 for the wife of a high "Jeffersonian simplicity" government official at Washington. It has forty-one stones of blue, green and the center gem is valued at \$2,500.

It is expected that Senator Hudd, of Green Bay, will be Mr. Rankin's successor in congress. He is a splendid man in many ways and would fill the place with credit to himself and an honor to his party. A special election will be called immediately after the funeral.

The president talks of appointing a bank examiner from Missouri and some one suggests Frank James. Frank has a good deal to do with banks, and his exploits show that he can go through a bank as rapidly and thoroughly as any expert.

Senator Frye, of Maine, opposes the idea of a reciprocity treaty with Canada in the interest of the provincial fishermen. He wants the tariff laws enforced, and the practice of admitting frozen fish as fresh fish stopped. If the law were enforced, Senator Frye thinks Nova Scotia, New Brunswick and Prince Edward Island would have no market, and would be forced to seek annexation to the United States, which Great Britain would not hinder.

A special from Sanford, Florida, to the New York Tribune says: "Florida has a black eye. The orange crop is ruined and many of the young trees are killed. The people are trying to conceal it, and the land agents see it is not so, but it is so. There is not a sound orange tree left in all the State. In all the famous orange groves the ground is covered with golden frozen fruit. These are taken gathered from the best sources of information, and they mean a loss of \$50,000,000."

The question as to what beans really are, which has been the subject of much argument and several decisions in the United States courts, was again before that tribunal in New York Monday. In 1874 beans were placed by a decision in the court in the category of garden seeds, on which 20 per cent duty is payable. Subsequently they took position as a vegetable, dutiable at 10 per cent, and yesterday General Henry E. Treman successfully argued against Assistant District Attorney Platt, and beans should be admitted free of duty under the classification of "Beans, drugs not edible in a crude state." The plaintiff, who was Louis A. Solomon. The verdict, if upheld, will probably have an important effect on agricultural affairs.

Chicago elevators, as per official returns contain 14,561,032 bushels of wheat, 2,622,000 bushels of corn, 275,116 bushels of oats, 320,511 bushels of rye and 166,021 bushels of barley, making a grand total of 17,885,000 bushels, against 17,870,538 bushels a week ago, and 16,763,507 bushels at this period last year.

New York and Brooklyn warehouses are stored with 8,480,875 bushels of wheat, 909,975 bushels of corn, 602,879 bushels of oats, 117,725 bushels of rye and 102,448 bushels of barley.

Exports from seaboard ports last week included 118,800 barrels of flour, 805,100 bushels of wheat, 1,891,400 bushels of corn, 67,500 bushels of oats, 5,400 barrels of pork, 7,020,000 pounds of lard and 11,165,300 pounds of bacon.

Visible supply of grain in the United States and Canada: Wheat 55,870,737 bushels, corn 6,678,075 bushels, oats 1,904,630 bushels, rye 745,005 bushels, barley 1,551,412 bushels. During last week there was a decrease of 1,247,885 bushels of wheat, 79,607 bushels of oats, 12,859 bushels of rye and 15,475 bushels of barley, but an increase of 52,667 bushels of corn. —Chicago Journal.

The tribute which Senator John C. Spooner paid to the late Vice President Hendricks, was his maiden speech in the senate, and attracted much attention for its discreet tone and graceful delivery. A Washington dispatch, in giving an account of the oration says: "His address was a revelation to the immense crowd which listened with wrapt attention, and to several of the reportorial geniuses in the press gallery who have been engaged in belittling him with derisive sketches and ridicule since his first appearance in the senate last March. The impression thus created were swept away to day, and the junior Wisconsin senator in one jump reached the front rank of senate orators. Of the ten eulogies delivered his and that of Senator, Evans were the only ones not read from manuscript. Without display or ostentation he charmed the audience with his eloquence, and the veteran senators paid him the compliment of earnest and respectful attention, instead of retreating to the cloak rooms as is usually done when many speeches have exhausted a subject. Although near the fact of the list of speakers, the senators drew near to Mr. Spooner's desk and not one person left the gallery during the delivery of his eulogy. Senator Spooner's estimate of the late president was generally accepted as a correct estimate of his character."

A special dispatch to the Milwaukee Sentinel, from Madison, under date of January 26th, gives the following details of the corner's inquest looking into the cause of the recent locomotive boiler explosion at that city:—The testimony in the inquest looking into the cause of the recent explosion was resumed this morning. Captain John Nader, a civil engineer, who has been in the marine engineering service of the government, was the principal witness. He held that the boiler of the locomotive was improperly patched, inasmuch as circular instead of square patches were used. The counsel for the railway company held an opposite

WHAT WAS I BEGUN FOR?

TO BE SO SOON DONE FOR, SALISBURY SADLY SINGS.

Crucially Crushed on the First Division in Parliament with Seventy-Nine Majority Power—Greek Pyrotechnics Going Off Vividly—Dynamite Scare—Notes.

LONDON, Jan. 27.—In the house of commons Tuesday evening, Mr. Jesse Collins announced to the members of parliament that the house was to be dissolved on the 28th inst. The amendment, which recommended certain alterations of land to tenant farmers, is in some respects more extensive than the amendment of Mr. William O'Brien. Mr. Gladstone supported the amendment, and Lord Hartington spoke in opposition to it. Sir Michael Hicks-Beach, in arguing against its adoption, declared that if the government were defeated in a division upon this question it would go out of power without the slightest feeling of regret. A vote was then taken which resulted in the adoption of the amendment by a vote of 279, the government being defeated by a majority of 71.

In the division Mr. Courtney, Sir John Lubbock, Messrs. Rothschild, Grey, Elliot, Wodehouse and other moderate Liberals voted with the government. Messrs. Goschen, Chamberlain, Dilke, Trevelyan, Labouchere, Bradlaugh, Richard and Grosvenor, and all the Conservatives voted against the government.

Sir Michael Hicks-Beach, the Conservative leader, gave notice in the house of commons Tuesday afternoon that the government would introduce on Thursday a bill to suppress the Irish National League and other dangerous societies, to prevent intimidation, to protect property, and to maintain public order in Ireland. This announcement was greeted with loud cheers from the Conservatives, while the Irish members cried "war," "war," "war."

Sir Michael said he would ask the house to give the bill precedence. He added that this measure would be followed by a bill dealing with the land question on the 29th inst. The bill proposed by the land-purchase act of last session.

Mr. Thomas Power O'Connor, in an interview, said the proposed introduction in parliament of a bill for measures for Ireland was a party trick, based upon the hope of Whig support, a hope that would probably prove delusive. He thought the anti-Irish feeling in England was not so great as the Irish people in Ireland thought it to be. The minority, he declared, would certainly be defeated and Mr. Gladstone would form a home-rule ministry which would have the full support of the Liberals and the Free Traders.

Mr. William O'Brien, member of parliament for Mullow, and editor of United Ireland, in a speech with Mr. O'Connor that the idea of suppressing the league was absurd. The government, he said, might as well try to overthrow a law of nature.

THE OUTBREAK OF GREEK FIRE.

Gladstone Appealed to—Just Spotting on a Fight.

LONDON, Jan. 27.—A cable special to The Boston Globe by its correspondent here, Tuesday night, has the following: The latest news from Athens indicates that the situation is growing more serious. It now looks as if Greece might, in the prevailing excitement, take some step that will precipitate a conflict even before the short-lived British conservative government is overthrown, though the latter event is near at hand.

The instinctive confidence of the Greek people in Gladstone is shown by a telegram sent on behalf of the citizens of Athens Tuesday evening calling on him to decide whether the Greek cause is not a just one. Mr. Gladstone's admirable reply urging peace and deliberate action only, is much praised.

Greece has not yet formally replied to the portis ultimatum requiring the withdrawal of the Greek fleet from the Turkish straits, but the denunciation of the troops. The British fleet in these waters has orders to co-operate in an international naval demonstration, if such a course should become necessary to convince Greece of the futility of resisting Europe's demands for the maintenance of peace, pending the settlement of the Balkan question by the ambassadors of the powers.

ATHENS, Jan. 27.—In upholding the recent frequent demonstrations intended to excite war-like enthusiasm, the Greek authorities have over-shot the mark. The people, deluded by the bombastic speeches of the terrorist and deceived by the clever misrepresentations of Turkey's attitude and intentions, have become so eager to engage in actual war that neither the king nor Premier Delagoures is able to control them. It is expected that it will become necessary to suppress further meetings or demonstrations calculated to excite the populace.

BIG SENSATION SPOILED.

Explosion Which Might Have Been Dynamite, but Wasn't.

LONDON, Jan. 27.—A terrible explosion occurred in the Victoria railway station at Norwich Tuesday afternoon, completely wrecking about one-half of the building. Fortunately there were very few passengers in the depot at the time, and it can not be learned that any person was injured, but the most excitement and consternation prevailed, and no one could be found who did not immediately ascribe the explosion to dynamite. The circumstance that Mr. Justice Hawkins, before whom the dynamite, Barton and Cummings were tried, was expected to take a train from the station at about the hour the explosion occurred went far toward confirming this belief. It was discovered later that the explosion was caused by a leaking gas pipe that had been left open by a workman.

In Memory of the Alton Theatre Holocaust. VIENNA, Jan. 27.—The "Oblivion House" which occupies the site of the Ring theatre, which was destroyed by fire, caused the loss of hundreds of lives, was formally opened by the emperor Tuesday. The building is a handsome good structure containing a large number of rooms. These will be let in suites and the rents devoted to charity.

Lawlessness in Spain.

Madrid, Jan. 26.—A party of robbers armed with revolvers and a trail of a railway crossing the mountains in the province of Jaen Tuesday. They were discovered by a body of troops which attacked and dispersed them. Lawlessness is becoming alarmingly prevalent in the mountainous part of Spain and the troops are unusually vigilant.

THE ROCHESTER LAMP

gives a light never before equaled with kerosene. Manner of operation is simple. It is mechanically perfect, with a Wick movement entirely new. It does not get dangerously hot, like all other lamps with button burners. It does not require any gas vent. Gives a light of 30 candle power. For sale cheap at Wheelock's. If you want a cheap lamp, giving an immense light, use a Hickock Oil-Clam Burner, put it on one of our lamps, and you have a lamp costing a few cents and you will have a lamp costing a little more, but giving four times the light of the common lamp. It is a proof lamp chimney full of wax, cheap at

A Song of Gratitude.

In golden times, Bergheda's pool
Was famed for boiling hot disease;
Once plunged beneath its waters cool,
I felt oval, stain and sickness cease

Of water as rare, as much as ever,
A ready wash, quick and sure.
By RICHARD S. SAMARITAN. NINETEEN.

For Philip, S. Samsen, Peters, Colton, Cramer,
Coughen, Cohen, or whom I wish of Kith and;
It is not a law-er stamp,
It favoure all other pages.

It goes out right to the spot
Where in the clau-der, the water-er-er-er;
In all the world perhapse there's not
A cure like Dr. Hammonds NINETEEN.

As in the blood diseases lie;
Each artery, each vein, each curve in;
There's no more makes
Like the SAMARITAN. NINETEEN.

For old or young, for rich or poor,
Whichever class of life you are in
To health wide open is the door.

LOCAL MATTERS.

Fun at the opera house this evening.
—The Choral Union will meet this evening at the usual place.
—Anderson's band will give a dance at the Riffe's armory to-night and the hall should be well filled.
—Wisconsin Lodge No. 14, I. O. O. F., occupy Odd Fellows' hall this evening—regular weekly meeting.

—Two victims of adversity or laziness were before Judge Patten to-day and received bread-and-water meal tickets.
—Haverly's minstrels are booked for the opera house, Monday evening Feb. 1st. Reserved seats on sale at Prentice & Evenson's.

—Badger Council No. 223, Royal Arcanum, hold a regular semi-monthly meeting this evening—lodge room in the Lapin block, East Milwaukee street.

—The Odd Fellows and their families will hold another of their pleasant social gatherings at Odd Fellows' hall on Saturday evening. Good music will be in attendance.

—Last evening Mrs. F. B. Stacy took the class in bible study, through a part of the book of Joshua, beginning with the entrance of the Children of Israel into the promised land and ending with the fall of Jericho.

—In the natural philosophy experiments conducted by the high school pupils, the Janesville merchants have been very generous, lending instruments freely, and doing all in their power to help the class along.

—The Riverside polo club went to Milwaukee this afternoon and play the league team in that city to-night. Janesville will have a season of unusual quiet to-morrow as nearly everybody will be in the Cream City.

—Those who have neglected to clear the snow from the sidewalks are again reminded that there is an ordinance providing a severe penalty for such neglect. Many walks are now almost impassable on account of the snow.

—E. P. Stannard has received a valuable specimen of the western game bird, it being a China pheasant, sent from Oregon by J. Winkley. The bird is a beauty and in the state laws is set down as worth fifty dollars.

—The market for tobacco has at last opened and Mr. E. B. DeLong announces in another column that he wants 200,000 pounds of low grades. Farmers will not be slow in improving an opportunity to dispose of this class of stock.

—Mr. Charles O. McCormick and Miss Maggie Morrison, both of this city, were united in marriage at ten o'clock this morning. The Rev. Father McGinnis officiated, the ceremony taking place at St. Patrick's church.

—The First Methodist church people will have a social gathering at the residence of Randall Williams, Cherry street, this evening. The announcement is for an old fashioned Methodist social which means a good deal. Everybody invited.

—The Evening Star club dances have become quite an event in Janesville and the one Saturday night at the Guards' armory doubtless will be well attended. Once a week these dances take place and the participants invariably have a pleasant time.

—The case of Frost against the Citizens National Bank, of Beloit, is still unfinished and was on trial all of to-day. The only other business before Judge Bennett was a motion for an order to show cause in one of the cases. It was put over until some future time.

—The damp snow of last night was rather annoying in the yards around the Janesville depots. It interfered with the switching considerably, throwing cars from the track and otherwise causing inconvenience, although trains were not delayed the snow fall being too light.

—Mr. Niel Mahoney and Miss Agnes Burns, daughter of Mr. and Mrs. Thomas Burns, were this morning united in the holy bonds of matrimony. The ceremony took place at nine o'clock in St. Mary's church, the Rev. Father, Roche officiating, and quite a number of friends and relatives being present.

—The alarm of fire at four o'clock yesterday afternoon was caused by a burning chimney in a dwelling house on Pleasant street, between River and Franklin streets, fourth ward. There was considerable noise and excitement on the streets by people hurrying to give the "right of way" to the fire apparatus, but no damage resulted.

—The funeral of Anna Mahon was held at two o'clock this afternoon, from the home of her father, Mr. Thomas Mahon, of the fourth ward. The little one had made a warm place in the hearts of all who knew her, and her death has made many sad faces. Quite a number of friends and relatives were present at the funeral, and Dr. J. F. Conover's remarks were very appropriate. The interment took place at Oak Hill, Josie McCaffery, Harry Rancous, Charley Knippenberg, Torville Haviland, Warren Wolpehauser and Harry Dabson acting as pall bearers.

—There was a pair of novel runaways last evening. It appears that Dr. W. H. Palmer had a call to attend a patient near the high school building, at the same time his father, Dr. Henry Palmer, was called to attend a patient on Center avenue. In turning around to return to his office Dr. W. H. Palmer's cutter was overturned in the deep snow, the horse took fright and succeeded in getting away, running clear through the city, finally reaching Center avenue, down which street he went for Monterey. He soon came to the place where the elder doctor's horse was hitched, which upon seeing its runaway mate, broke loose and joined in the run. The runaways traveled over considerable snow, and made things very lively for a time, but little damage resulted.

—It is said that one of the most prominent members of the Anglo-worm club yesterday took his new Winchester rifle and went out into the country several miles for the purpose of "bargeing" his gun. He took with him a handsome target, and when he arrived at a favorable locality, he tied his horse, peered off 100 rods, placed his target, returned to his cutter for his gun, only to discover that he had neglected to bring along the

—The market for tobacco has at last opened and Mr. E. B. DeLong announces in another column that he wants 200,000 pounds of low grades. Farmers will not be slow in improving an opportunity to dispose of this class of stock.

—Mr. Charles O. McCormick and Miss Maggie Morrison, both of this city, were united in marriage at ten o'clock this morning. The Rev. Father McGinnis officiated, the ceremony taking place at St. Patrick's church.

—The First Methodist church people will have a social gathering at the residence of Randall Williams, Cherry street, this evening. The announcement is for an old fashioned Methodist social which means a good deal. Everybody invited.

—The Evening Star club dances have become quite an event in Janesville and the one Saturday night at the Guards' armory doubtless will be well attended. Once a week these dances take place and the participants invariably have a pleasant time.

—The case of Frost against the Citizens National Bank, of Beloit, is still unfinished and was on trial all of to-day. The only other business before Judge Bennett was a motion for an order to show cause in one of the cases. It was put over until some future time.

—The damp snow of last night was rather annoying in the yards around the Janesville depots. It interfered with the switching considerably, throwing cars from the track and otherwise causing inconvenience, although trains were not delayed the snow fall being too light.

—Mr. Niel Mahoney and Miss Agnes Burns, daughter of Mr. and Mrs. Thomas Burns, were this morning united in the holy bonds of matrimony. The ceremony took place at nine o'clock in St. Mary's church, the Rev. Father, Roche officiating, and quite a number of friends and relatives being present.

—The alarm of fire at four o'clock yesterday afternoon was caused by a burning chimney in a dwelling house on Pleasant street, between River and Franklin streets, fourth ward. There was considerable noise and excitement on the streets by people hurrying to give the "right of way" to the fire apparatus, but no damage resulted.

—The funeral of Anna Mahon was held at two o'clock this afternoon, from the home of her father, Mr. Thomas Mahon, of the fourth ward. The little one had made a warm place in the hearts of all who knew her, and her death has made many sad faces. Quite a number of friends and relatives were present at the funeral, and Dr. J. F. Conover's remarks were very appropriate. The interment took place at Oak Hill, Josie McCaffery, Harry Rancous, Charley Knippenberg, Torville Haviland, Warren Wolpehauser and Harry Dabson acting as pall bearers.

—There was a pair of novel runaways last evening. It appears that Dr. W. H. Palmer had a call to attend a patient near the high school building, at the same time his father, Dr. Henry Palmer, was called to attend a patient on Center avenue. In turning around to return to his office Dr. W. H. Palmer's cutter was overturned in the deep snow, the horse took fright and succeeded in getting away, running clear through the city, finally reaching Center avenue, down which street he went for Monterey. He soon came to the place where the elder doctor's horse was hitched, which upon seeing its runaway mate, broke loose and joined in the run. The runaways traveled over considerable snow, and made things very lively for a time, but little damage resulted.

—It is said that one of the most prominent members of the Anglo-worm club yesterday took his new Winchester rifle and went out into the country several miles for the purpose of "bargeing" his gun. He took with him a handsome target, and when he arrived at a favorable locality, he tied his horse, peered off 100 rods, placed his target, returned to his cutter for his gun, only to discover that he had neglected to bring along the
